

**Find Images which can be used in personas that you will create as a team.**

**Research 2 apps that your group could use to help them create user personas.**

Google Doc. <https://docs.google.com>

I believe every student in the class has a google account. Google Doc will be a good use since people will not have to sign up and use directly through any device.

Zoho Docs <https://www.zoho.com/>

Zoho Docs has many convenient features that is easily used. It has a user-friendly UI which will be good for new users to adapt.
